

A brief overview about Amlaak Energy Resources

   amlaakoman

 amlaak@amlaakoman.com

Our Solutions and Services

1- Fuel Distribution & Logistics

Reliable fuel supply and transportation services across the Sultanate of Oman.

- Fuel distribution and bulk fuel supply
- Petroleum product transportation
- Modern fleet of specialized fuel tanker trucks
- Fuel delivery to remote industrial locations and construction sites
- Fuel tanker rental and logistics support

2- Fuel Waste Management

- Fuel waste handling and disposal
- Waste oil and hydrocarbon residue management
- Environmentally responsible fuel disposal solutions

3- Crude Oil And Vacuum Tanker Services

Crude oil and vacuum tanker services ensure the safe handling, transport, and disposal of oil and hydrocarbon liquids. Using specialized tankers, operations are conducted efficiently and in full compliance with health, safety, and environmental standards, serving oil & gas, industrial, and construction sectors.

4- Lubricants:

A range of high-quality lubricants is supplied to support industrial equipment, transport fleets, and machinery. Products are selected for reliable performance in demanding environments and are delivered in line with safety and environmental standards, ensuring consistent quality and availability.

5- Tanker Rental with Driver Services

Fuel tanker rental services are available for short- and long-term needs, offering flexible and reliable fuel transport solutions. Each tanker is operated by trained drivers, ensuring safe and efficient delivery in compliance with industry standards, including in remote or demanding environments.

6- Smart Fill Management System

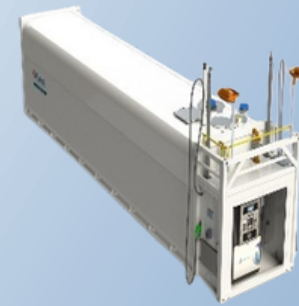

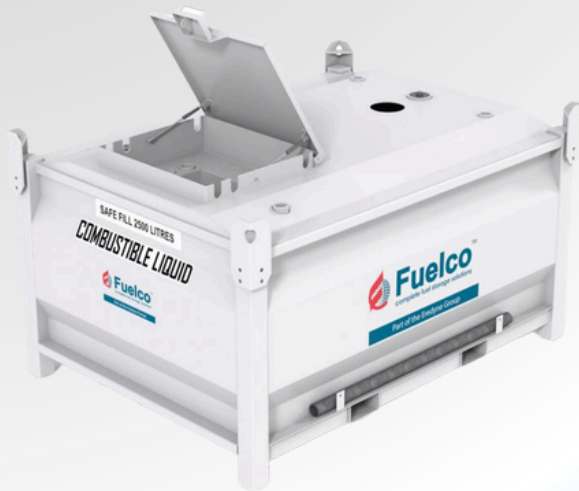

Advanced digital fuel management solution enabling:

- Real-time fuel monitoring
- Multi-site fuel tracking
- Inventory reconciliation
- Remote access and reporting
- Accurate fuel accounting and control

7- Fuel Storage & Containers

- Containerized fuel storage solutions
- Fuelco container tanks and Logitank storage systems
- Storage capacity from 1,000L to 75,000L
- Safe storage for diesel, gasoline, lubricants, and waste oil

8- Retail & Commercial Fuel Station Equipment

Complete equipment solutions for fuel stations and commercial fueling facilities.

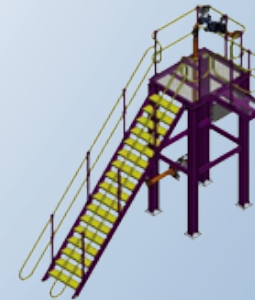

Fuel Dispensers

- 1.Latitude™ Dispensers
- 2.SK700-II Dispensers
- 3.Encore 500 Dispensers
- 4.Frontier Dispensers

Top Loading Facility - GASSO

Standard type regulation friendly upper/bottom loading by GASSO.

Submersible Turbine Pumps

- Red Jacket STP systems
- High fuel flow and energy efficiency

Nupi Pipeline

NUPI-Smartflex range is offered in both single-wall and double-wall from advanced, biocompatible, and fully recyclable techno-polymers.

Automatic Tank Gauging (ATG)

- TLS-450 PLUS
- TLS-4B tank monitoring systems
- Fafnir – Visy-x

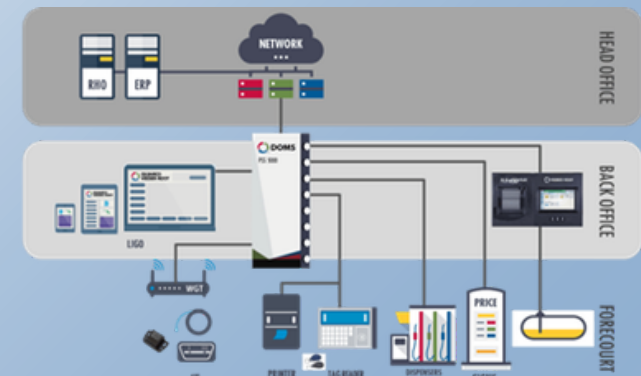

Fuel Station Hardware

- Catlow nozzles and breakaways
- Hose retractors and dispensing accessories

Fuel Automation

- Gilbarco Automation Suite
- Smart forecourt management
- Scalable systems for manned and unmanned stations

9- Environmental & Future Energy Solutions

Vapor Recovery Systems (VRS)

- Captures fuel vapors during fueling operations
- Converts vapors back into usable fuel
- Reduces emissions and environmental impact

Electric Vehicle Charging

EV charging solutions developed with global manufacturers.

- AC and DC charging systems
- Commercial and public charging stations
- Fleet and industrial charging infrastructure

10- Service Station Support Equipment

Additional infrastructure solutions for modern service stations.

Automatic Car Wash Systems

- Christ CADIS automatic car wash technology
- Efficient, compact, and high-performance systems

Air Compressors

- Atlas Copco AR Series compressors
- Reliable compressed air solutions for workshops and service stations

Air Inflators

- Tire inflation systems for fuel stations and service facilities
